

# THE LAST AND GREATEST SALE OF THE SEASON!

## Stock-taking Revelations---\$50,000 Worth of Merchandise Slaughtered

A sacrifice that is intensely real. A reduction that is undeniably genuine. A giant swing of the ax that shakes the store from center to circumference--entailing an absolute clear loss to us of over \$20,000. But it's simply a question whether we are going to carry these goods over or sell them. We choose the modern method of incurring the loss now. It's the greatest cut in prices--from real figures--ever known in commercial history. It's all--every dollar of it--spic, span, new goods--not the refuse of some wholesaler's undesirable--or "shady" stuff. There has been no marking up and then marking-down tactics indulged in here as you well know.
